

UCC FILING NUMBER CHANGE EFFECTIVE JANUARY 1, 2007

Effective January 1st, the filing number for UCC Filings will be changed to the full compliment of the year and filing number. All UCC1's filed on/after January 1, 2007 will have an eleven digit filing number that will reflect the entire year followed by the rest of the filing number. (Example - 2007 1234567) All UCC3 filings must always use the original filing number that was assigned to the initial filing statement and listed in box 1a. This means that any filings made prior to 2000 will be a 7 digit number, any initial filing received from 2000 until 2006 will be an 8 digit number and all filings made on/after January 1, 2007 will be an 11 digit filing number.
